To Whom It May Concern

I have known Adrian Kissler for 10 years.

About the time I retired from Monterey County, where I had served as the Director of Parks for 17 years, I enrolled in the Centurion Ropes Course Training Program put on by Adrian and Karl Rohnke at Adrian's On Course Ropes Course in Auburn, California.

I had a wonderful experience that served to launch me into the Ropes Course Profession as a facilitator. After spending most of my career in Parks and Recreation at the management level, I was eager get my feet on the ground and have some fun – especially with the kids.

Adrian and Karl gave me the foundation I needed to get started; and I have over the years attended two additional refresher courses of the Centurion Training Program that they have provided. During this time I have come to know Adrian and have learned to appreciate his special skills as an educator and a ropes course builder and facilitator.

My ropes course business features a portable challenge course and a low element ROPES Course. I really like the experiential education component in the training and enjoy developing my own problem solving initiatives for the groups I serve. The training I have received from Adrian over the years has enabled me to do this successfully.

Adrian has become a valued professional associate and friend whom I can recommend highly as a Challenge Course builder, instructor and facilitator.

Sincerely,

Pete Soderberg
